science.gov

USA.gov for SCIENCE

www.science.gov

Science information from 13 Federal Agencies:

Department of Agriculture
Department of Commerce
Department of Defense
Department of Education
Department of Energy
Department of Health and Human Services
Department of the Interior
Environmental Protection Agency
Government Printing Office
Library of Congress
National Aeronautics and Space Administration
National Science Foundation

With additional support from the National Archives and Records Administration

***Build on the research of others*; eliminate research redundancy; quickly find out what other researchers are discovering; receive alerts on your latest science topics of interest; search over 50 million pages of science from Web pages and databases; get relevancy ranked results.**

"...a great example of e-government in action."

Dr. John Marburger, Director
Office of Science and Technology Policy
December 5, 2002

"...makes it easier to round up scientific information that is strewn across the U.S. government's numerous Web sites."

Science Magazine's NetWatch
December 20, 2002

"I guarantee you will be blown away by the resources at your disposal."

Stuart Brown, Editor
Internet Science Week, March 12, 2004

CENDI, the Federal Scientific and Technical Information Managers Group, provides administrative support and coordination for Science.gov.
